ODIN'S HOUSE ORCHESTRA – m. Rina Skeel, Jan Ferslev, Pelle Henningsen og til tider, Søren Normann Larsen.

ART-NATURE LAB offers a wealth of exciting lectures and workshops led by both local and international artists. The event focuses on deep engagement and the exchange of experiences regarding artistic work in and with Nature. The content is diverse, ranging from craftsmanship to natural materials, art, performance, and various cultural and working traditions.

In 2026, we will host Art-Nature Lab for the third time. Art-Nature Lab enables us to explore new paths, methods and ideas - artistically, philosophically, and on a human level. The project fosters new collaborations and a network that not only enriches us at Scenographic Lab and Teatret OM but also heightens both our own and the participants' awareness of the climate crisis, inspiring new directions for artists and participants alike.

A huge THANK YOU to Kultursamarbejdet i Midt- og Vestjylland for supporting the project, as well as to Ringkøbing-Skjern Municipality and Erasmus+ for making it possible for us to invite exciting artists to join our community.
